United International  
Pharmaceutical Co.

**UIP** was established in Amman-Jordan in 1996, by the Chairman of the Board of Directors, **Mr. Muhammad Elayan**, and the company focused on manufacturing specialized pharmaceutical preparations related to gynecological diseases, personal care, and pregnant and child care products, as the company sought to develop pharmaceutical preparations Within the international standards to include many pharmaceutical preparations such as therapeutic creams, medical soaps, skin care products and topical analgesics, and then the production of antibiotics, anti-allergic drugs, nasal sprays and drops ...

Our research and development department is constantly working on developing new pharmaceutical products that meet the needs of the local and international medical sector.

**UIP** is a company committed to international manufacturing standards and holds several certificates accredited by **JFDS** and holds **GPM, IAS, LMS** and is accredited according to **CE** standards in addition to **ISO 13485:2016** certification.

Our marketing department works to meet the needs of our authorized agents in the local markets, the Middle East, North Africa and the Gulf. It provides marketing consultancy and scientific materials in cooperation with the scientific department, and also allows some agents to manufacture their own brands, the Privet label system.

The company's export department also seeks to search for new markets through agents and distributors and to make successful partnerships, to keep abreast of developments in the medical field, which is growing rapidly at the global level.

## VISION & MISSION

---

**Our Vision** is to maintain participation in promoting and strengthening human values, health care improvement, and positive interaction with our society.

**Our Mission** is to seek all the opportunities to approach our agent's / consumers' satisfaction.

**Our Target** is to become the national benchmark in manufacturing, improving, distributing, and pharmaceuticals marketing.

# DEPARTMENTS

## **Production Department**

This department, consisting of a qualified professional team, it includes the following units:

- Vaginal douche production unit
- Medicated soap production unit
- Creams production unit
- Ultrasound gel production unit

Supporting production departments

- Quality assurance & quality control department
- In-house laboratory department with the most up-to-date technology and test equipment.
- In-house specifications department, for raw material, production, and packing of the products.

## **Marketing Department**

People in this department are MBA Pharmacist Biochemists and marketing experts, they well qualified for planning, building market strategies, approving market activities, also conceptualizing and developing, and designing promotional materials.

## **Sales Department**

The philosophy of our company is based on the fact that the Production & Marketing Department is the brains of the company while the Sales Department is the hands which convert the plans into fact actions.

The following officers are working together in this department:

- Country sales officers
- Regional sales manager

## **Administration Department**

We are keen to reach our customers everywhere in the world, so the chandelle of the logistics department is to achieve this goal. The team in this department is committed to making our presence felt globally.

The following sub-departments are attached to this department:

- Inventory and stock control
- Transport operation
- Maintenance

## **Medical Service Department**

Our company was not formed to supply high-quality pharmacy products, but also to have a pool of talented doctors and professionals through our feedback system, which allows all these experts to communicate with us from across the country, they are the best brains who could lead the development concept of our products. In addition, this department is responsible for organizing several scientific seminars, and symposiums, later collaborating with some publishing medical newsletters to talk about our products and research.

## **Sales Training Department**

To be on the top in any business, there is a need to constantly TRY and IMPROVE. The aim of this department is to help in training people at entry level and updating people who were already working in this field to ensure a highly skilled workforce which will reflect positively on our products.

## **HR Department**

We are striving to grow and scale newer heights. We see Human Resources as the very backbone of our company.

We are keen to require young, talented, aggressive, and focused professionals who are liable to work with us for a long time and grow with them our company.

If you are motivated, tough, and love challenging work, please come to United International Pharmaceutical, We have an exciting career for you.

# QUALITY & ACCREDITATION

We are testified by the following certifications:

## **JGMP**

The Jordanian Good Manufacturing Practices certificate had awarded to our company for compliance in the implementation system of the Quality Management System.

## **ISO13485 : 2016**

International Standardization Organization awarded our company certificate for superior quality, efficient management system, and judicious resource management and planned product realization.

## **Free Sales**

The Ministry of Health in Jordan awarded our company Free Sales Certificate

## **COCAI**

The Chamber of Commerce and Industry awarded our company this certificate to start production.

Certified Iso 13485:2016
